

## Intact Organizer

1. Use a Windows Explorer like interface to find documents logically and instantly.
2. Gain freedom from dealing with cluttered files placed all over your hard drive with our behind the scenes virtual mapping. All of our filing is logical, so you only store one electronic copy of a document without having to understand cryptic and ever changing server file systems.

## Managing Documents

1. Make viewing a document on screen quick and painless with tools that will Pan, Rotate, Magnify, and Jump to various pages within your documents.
2. Print, email, or fax the entire document or select a page range.
3. Add Annotations to a Document – highlight text, add stamps, text boxes...

## inZone

1. Zonal OCR/Barcode Recognition/Print-to-File with ODBC Connectors.
2. Automatic data lookup from document key zone.
3. Complete document creation and automation.
4. Create new documents using single or multiple key values.
