

Imagine scanning documents at your MFP and having them automatically named, filed, and indexed without giving up valuable time in your day.

- Unlimited number of Department Document Categories such as Accounting, HR, and Finance.
- Create an unlimited number of document definitions such as invoices, resumes, and financial statements.
- Customizable indexes and filing rules.
- Create Searchable PDFs.

Search and view documents with powerful inpoint features or simply browse in a Windows File Directory.

inpoint is a remarkably affordable utility that turns your copier corner into a streamlined document center.
